PROFILE

I am a student majoring in computer science. I have an interest in software and programming languages. I am characterized by my ability to learn quickly and solve problems. I aspire to work in an environment that stimulates creativity and allows me to continuously develop in various fields.

EXPERIENCE

Arabic reading challenge

2017 - 2018

My participation in the Arab Reading Challenge was a very inspiring and enriching experience. The challenge was an opportunity to improve my reading and analytical skills, and increase my linguistic and cultural knowledge. It also ignited in me a greater passion for books.

The National Program for Giftedness Identification

2016 - 2017

My participation in the gifted test was a unique experience, as it gave me the opportunity to test my mental abilities and creative skills in a competitive environment. Participating in the gifted test was an important step in my educational journey, as it provided me with confidence in my abilities and opened new doors for me to continue to excel and innovate.

EDUCATION

Bachelor of Computer Science

2023 - 2027

During my Bachelor's degree in Computer Science, I gained comprehensive knowledge in programming, data analysis, and software engineering. I delved into studying algorithms and data structures, and I became familiar with the latest technologies in application development and systems analysis. Additionally, I worked on practical projects that allowed me to apply theoretical knowledge to real-world solutions, enhancing my critical thinking and problem-solving skills.

SKILL

- self-control
- Responsibility
- Programming
- Communication
- Problem solving
- Time management
- Use of technology
